"Mathematical (Name-Sound) Analysis of the Names---Jesus, Messiah, Muhammad and God"

Mathematics is an exact science and we would like to manifest through the principle of mathematics and the principle of sound, the veil that covers the three major religions. We are presenting evidence that will guide us to the origin of the conflict among the great religions of the earth

Christians believe that Jesus of Nazareth is the realization of the Messianic prophecy and they believe that the prophets were prototypes of him (Jeus). The Messiah is the promised and expected deliverer of the Jews, who expect the Messiah to arrive when God establishes his kingdom on earth. The Muslims believe that all of the prophets of God were signs of Prophet Muhammad. Despite ideological differences, arguments and pontifications put forth by all of the three religions-- The Law of Mathematics reveal that the sum of the letters in the names of Jesus, Messiah and Muhammad are equal to the number **74**. What are the chances that this would happen when there are thousands of words in the language? It is not by accident and serves as a sign from the Creator. The only differences are the mathematical **factors** that were used to arrive at the answer.

The Numbers **7** and **4** applied to the Gregorian Calendar is **July 4th**—which marks Independence Day.

a	b	c	d	e	f	g	h	i	j	k	l	m	n	o	p	q	r	s	t	u	v	w	x	y	z

The date July **4** is written as **7-0-4**. Now, we can apply the date to the alphabet—we see that the zero resembles the letter "O" so it will remain the same. Therefore, are left with the numbers **7** and **4**. The number **7** corresponds to **G** and the number **4** corresponds to **D**. (look at graph below)

numbers	7-	0-	4
alphabet	G	O	D

A mathematical analysis of the names ----- **Jesus, Messiah & Muhammad guided us to the name GOD, because the purpose of each man's mission was to direct us to GOD. They were righteous men who attained FREEDOM from the influence, control, or domination others because they only answered to GOD.**

When we sound out the letters **G-OD** becomes **GEE-ODD**, which sounds like the Arabic word **Jee- Had (Jihad)** which literally means struggling with one's utmost effort to fight in the cause of truth. So most of the wars among proponents of the various religions are struggling over the numerous "**factors**" of their various ideologies rather than focusing on the **totality** of who and what the men and their scriptures pointed to and that was, and always will be-- **GOD**.

" Name-Sound Analysis of the name—GOD"

We would like to manifest through the principle of sound and the principle of mathematics--- the science of the word —**GOD**.

"In the Beginning was the Word, and the Word was with God, and the Word was God ..." (John 1:1) Word is defined as a "speech sound." In the sound of "word"—you hear wor(war) + ord. War means to struggle, contend or battle. **Ord** is the root of the word , **order** and means to **give a command**. So what was the order that God gave? We think He leaves a clue in all the syllables of **GOD (GE- E- OD)** The first syllable is **GEE**, which has two meanings. On one level, it is a command to "turn to the right". and on a metaphysical level, it means "The Self." **EO** means "dawn light of the East". The order was given to turn to the right – facing the East- the rising sun. It is really an order for prayer and can be proven through the principles of sound of the seven tones (notes).

1 2 3 4 5 6 7
DO RA MI FA SO LA TI

DO RA DORA is the root of the word- Adoration which means to show great love or honor for divinity. [**DO** is an action and **ORA** the root of the Greek word **ARA** - which means prayer. (**Do-Ora =Do Prayer**).]

MI sounded as **me**—refers to **ONE** person. (God is **ONE**).

FA root of Father and means "To Make" because Father God makes "something out of nothing."

SOL-LA-TI sounded as Arabic word (**Salat**) which means prayer.

So even in the seven tones (notes)—there is an instruction from the Creator (see summary below)

ADORE- ME- FATHER- MAKE PRAYER! (The word "Sol" means sun and it rises in the East.)

DORA MI FA (SOL-LA-TI) (Solatti=Salat : Arabic word for Prayer)

Essentially, we have demonstrated that the word **GOD** contains a prayer command to turn in the direction of the East- toward the "rising sun". The sounding of the word, **GEE-ODD (Jihad)** led us to a word used by the Muslims that is used as a cry for struggling with one's utmost ability in the cause of truth. Prayer and struggling in the cause of truth are contained in the teachings of Jesus, Messiah and Muhammad because they all overcame overwhelming opposition to establish their revealed words from **GOD**.

" Mathematical (Name-Sound) Analysis of Root Cause of Arguments among the Major Religions"

We would like to manifest through the principle of sound and the principle of mathematics--- the root cause of the arguments about Jesus, Messiah, and Muhammad.

---	--	---

POINT #1-The sum of the letters in the names of the three men = **74** and the Creator has left a clue in the sum total of the letters in the names of Jesus, Messiah and Muhammad. He also left a sign in the heavens and the earth regarding the source of the conflict. The solar system has nine planets with the sun as the center. The **7th** planet from the sun is Uranus and the **4th** planet is Mars. The root of the word **Uranus** can be traced to Greek word **Ouranos**, that literally means **heaven** and Mars is the personification of **war**. **So on a planetary level – 74- points to a war in heaven.**

POINT #2 – The Creator left a possible sign about the war in heaven in the 7th and 4th month of the Gregorian Calendar (July-April). Let us investigate some of the sounds inside of the words—**July April.**

JU ri

ly ap l

-- In the words July and April is the word **Juri**. A juri (jury) settles quarrels and give decisions in accordance with their findings; **Ly** (sounds like **lie**) and is false statement that one knows is false with intent to deceive. In addition, the remaining letters-- **apl** (sounds like **apple**). There is an instance in the Bible of Adam and Eve being thrown out of the Garden of Eden (heaven) after eating a fruit that most historians depict as an apple. It,also, is a story about how their disobedience manifested the eternal war in heaven between good and evil.

POINT #3— The Creator left a clue in the sounds about the root of the conflict between the three major religions and we can use the principle of mathematics to locate the clue.

1 2 3 4 5 6 7 DO RA MI FA SOL LA TI	7 4 TI FA	7 4 Spiritual Foundation
--	--------------	-----------------------------

The sound analysis manifest the sounds--**TI** and **FA**. The number is **7** is associated with **spirituality** and the number **4** is the number of **foundation**.

The roots of the word, **TI** can be traced to a word that means- **dual** and can be sounded (**tie**), which means “**to draw together or join at least 2 parts**. **Fa** means (to make) So **TiFa** can be transliterated as “**to make a tie or bond**” . So you may be asking- Where did the conflict begin? When we join **TI + FA** , we get the word **TIFA**, which contains the word **TIF** , **which means a quarrel or argument**.

POINT # 4 – The arguments among the three major religions is rooted in a universal law that can be traced to a planet in our solar system. Fa is short for **father** and contains the word **fath**, which can be sounded as **faith**. So, the source of the argument is rooted in **faith** which is a religious tenet. In fact, the basis of the **spiritual foundation** of any belief system is **faith** and that is a **universal law** independent of “religious dogma and ideology.” The disciple associated with faith is **Peter** and his name is heard when you pronounce the name of the largest Planet in our Solar System -----**Jupiter (Ju-Peter)**, which means **FATHER!**
